

A ZAPI GROUP COMPANY

OUR CAPABILITIES

ZAPI GROUP offers a wide range of products for full-electric and hybrid applications, in-house system integration capabilities, and over five decades of experience designing and manufacturing electrical components.

Electrification is at the core of our DNA, and it has been our mission since our inception to enable original equipment manufacturers' transition toward a cleaner, more sustainable future.

OUR APPLICATIONS

Construction Equipment

Agriculture

Material Handling

Robotics & Automation

Aerial Work Platforms

Turf Equipment

GSE + Tow Tractors

E-Mobility

Floorcare

Powersport

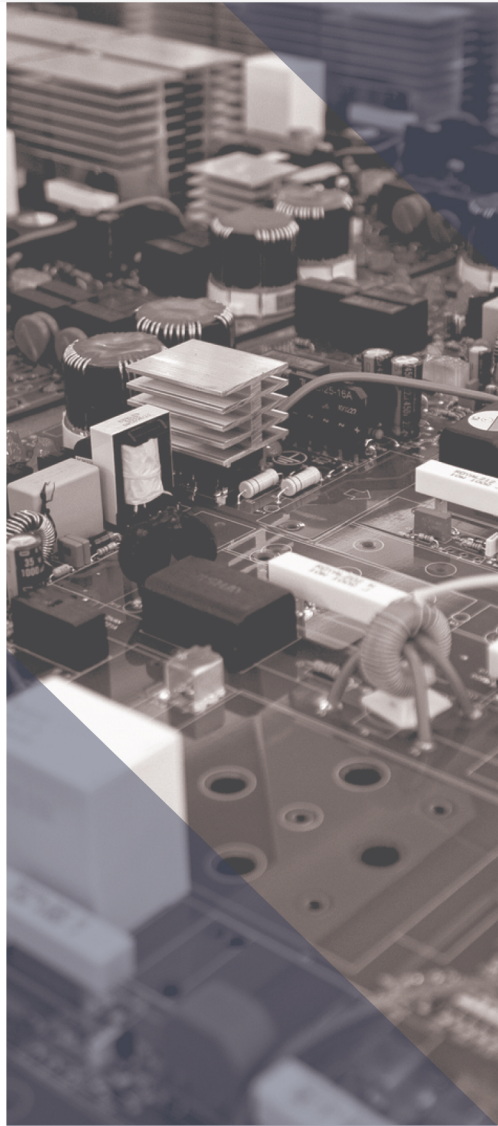

Maritime

ON-BOARD & OFF-BOARD CHARGERS

AUTONOMOUS NAVIGATION SYSTEMS

ABOUT ZIVAN

ZIVAN has 40+ years of experience in high-frequency charging technology for electric-powered machines and vehicles, providing robust and reliable solutions for material handling, construction equipment, agriculture, outdoor power equipment, aerial working platforms, robotics & and automation (AGV, AMR), light electric vehicles, and more. Our product portfolio of on-board and off-board battery chargers ranks among the most complete and flexible in the global market, ranging from 1 kW to 36 kW (and more) output power.

We provide close, expert support to our partners and customers, which include the world's market-leading companies, through all product lifecycle phases.

ABOUT ZAPI GROUP

ZAPI GROUP is engineering the transition to a cleaner, all-electric future, leveraging our expertise in systems integration, with a highly integrated product portfolio that includes motion controllers, electric motors, high-frequency battery chargers, and autonomous navigation software for applications in full-electric and hybrid vehicles.

As a global electrification leader with deep systems experience, leading innovations, and an obsession with driving customers' success, ZAPI GROUP now counts more than 1700 employees worldwide with total annual revenue of more than 600 million US dollars and a total of 18 offices in 13 different countries.
